

In the Drawings:

Figures 10 - 14 are amended as indicated in the following Remarks, in "Replacement Sheets" 7 - 9, copies of which are enclosed herewith.

REMARKS

This is an amendment to correct some additional clerical errors in the specification and drawings of the above-captioned patent application, discovered in the process of producing formal drawings.

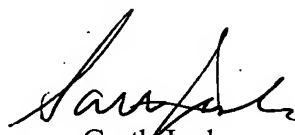

In Figures 10 and 11 and the accompanying text at page 16, the reference designators 2a, 2b, and R have been changed to 2a', 2b', and R' respectively, to distinguish over previous use of the former reference designators to refer to different features.

Figures 12 and 13 have been amended to eliminate reference designators C4 and C5 (also note by comparison of Figures 12 and 13 that C4 is incorrectly shown as C1 in Figure 12), which are not used in the written description.

Figure 14 has been amended to include the words "PRIOR ART" to show, consistent with the written description at line 14, page 17 and the drawing requirements of the PTO, that the Figure depicts prior art.

The formal drawings being submitted with payment of the issue fee have been changed to correct the errors noted above in anticipation that the Examiner will agree to enter the Amendment, because it merely corrects some clerical errors and does not introduce any new matter.

Sincerely,

Garth Janke
